Business Summary

JSW Energy Limited (part of the O. P. Jindal Group) is an Indian power generation company with an installed capacity of 13,211 MW as on 30 September 2025, split between thermal (5,658 MW, 43%) and renewables (7,553 MW, 57% - comprising 3,709 MW wind, 2,213 MW solar and 1,631 MW hydro). Thermal assets include Ratnagiri (1,200 MW), Barmer (1,080 MW), Vijayanagar (860 MW), Utkal (700 MW), Mahanadi (1,800 MW operational of 3,600 MW) and Nandyal (18 MW). The company has 12,540 MW under construction, 150 MW under acquisition (Tidong HEP) and a 4,561 MW pipeline, taking total locked-in capacity to 30,462 MW, along with 29.4 GWh of locked-in energy storage (3.0 GWh BESS and 26.4 GWh pumped hydro). Offtake is diversified across state discoms, SECI, PTC, NTPC, SJVN, group captive (2,697 MW) and C&I customers, with 1,087 MW merchant capacity. The company is also building a 3,800 TPA green hydrogen plant at Vijayanagar and a 5 GWh battery assembly plant at Pune. Credit rating affirmed at 'AA/Stable/A1+' by India Ratings and ICRA.

Key Highlights

- Net Generation up 52% YoY, from 9.8 BUs to 14.9 BUs
- RE generation up 42% YoY at 7.1 BUs, driven by organic wind capacity addition and O2 Power
- Thermal generation up 62% YoY at 7.8 BUs, primarily driven by Mahanadi and Utkal Unit-II
- Long Term PPA Generation up 56% YoY, from 8.6 BUs to 13.4 BUs
- Installed capacity increased 5.5 GW (~71% YoY) from 7,740 MW to 13,211 MW
- Reported EBITDA increased 67% YoY to ₹3,180 Cr, driven by organic renewable capacity additions and contribution from Mahanadi and O2 Power; H1 FY26 EBITDA grew 79% YoY to ₹6,237 Cr
- Q2 FY26 Reported PAT declined 17% YoY to ₹705 Cr, while H1 FY26 PAT grew 5% YoY to ₹1,448 Cr
- Cash PAT for the quarter increased 27% YoY to ₹1,512 Cr; H1 FY26 Cash PAT grew 44% YoY to ₹3,090 Cr
- Healthy balance sheet to pursue growth: Net Debt to Equity at 2.1x and Net Debt to Proforma steady-state EBITDA (excl. CWIP) at 4.8x
- Receivables on DSO basis stood at 64 days (70 days in Sep-24); Cash & cash equivalents at ₹6,181 Cr
- Credit rating affirmed at 'AA/Stable/A1+' by India Ratings and ICRA
- Added 443 MW organic renewable capacity during the quarter: Kutehr 240 MW, Wind 148 MW and Solar 56 MW
- 240 MW greenfield Kutehr HEP achieved COD in Aug-25 - one of India's fastest executed HEPs (under 6 years), backed by a 35-year PPA with Haryana Power Purchase Centre at a levelized ceiling tariff of ₹4.50/kWh; achieved 58% PLF for operational days in Q2 FY26
- Completed the strategic acquisition of KSK Water Infrastructure, locking in the Mahanadi plant's water resource security
- Entered into a Scheme of Arrangement with GE Power India to acquire its boiler manufacturing business

- Signed definitive agreement with Statkraft to acquire the 150 MW under-construction Tidong HEP for an Enterprise Valuation of ~₹1,728 crores, subject to closing adjustments
- Short term volumes increased 23% YoY to 1.5 BUs due to shift towards domestic coal based open capacity
- Thermal: total operating revenue up 69% YoY to ₹3,241 Cr and EBITDA (excl. other income) up 155% YoY to ₹1,320 Cr; 84% of installed thermal capacity tied up under long-term PPA
- Renewables: total operating revenue up 50% YoY to ₹1,926 Cr and operating EBITDA up 46% YoY to ₹1,678 Cr
- Energy storage agreements signed: 680 MWh in Q2 FY26 and 13.18 GWh in H1 FY26; locked-in storage capacity of 29.4 GWh against 2030 target of 40 GWh
- Safety: LTIFR of 0.14 in H1 FY26; 100% ash utilisation maintained
- Total RE operational capacity increased from 4,218 MW in Q2 FY25 to 7,553 MW in Q2 FY26

Outlook

The company targets tripling generation capacity to 30 GW by 2030 (implying ~20% CAGR in installed capacity) along with 40 GWh of energy storage under 'Strategy 3.0', supported by total locked-in capacity of 30,462 MW - 13,211 MW installed, 12,540 MW under construction, 150 MW under acquisition and a 4,561 MW pipeline where LoA/Lol is received and PPAs are to be signed (including 1,800 MW of Mahanadi thermal growth optionality). All under-construction renewable capacity is tied up under long-term PPAs, and the 1,600 MW Salboni thermal project is under construction; the GE Power India boiler business acquisition is intended to secure a critical part of equipment supply for growth in the thermal segment. Trial runs are under progress for the 3,800 TPA green hydrogen plant at Vijayanagar with green hydrogen and oxygen supply expected to commence soon, while line setup and commissioning of the 5 GWh battery assembly plant at Pune is expected in Q3 FY26. On sustainability, the company is committed to carbon neutrality by 2050, reducing carbon emissions by more than ~50% and enhancing renewable power to two-thirds of total installed capacity, with 17 focus areas carrying FY30 targets. On the business environment, real GDP is estimated by RBI to remain healthy at 6.8% for FY26, inflation remains benign at 1.54% in Sep-25, and GST rationalisation is expected to boost consumption and, in the power sector, reduce capital costs and optimize affordability of power.
