- Total capital adequacy ratio of 17.00% including profits for H1-2026

Outlook

The presentation contains forward-looking statements which the Bank notes are subject to risks and uncertainties including statutory and regulatory changes, international economic and business conditions, increase in non-performing loans, unanticipated changes in interest rates and foreign exchange rates, adequacy of allowance for credit losses and actual growth in demand for banking products and services; ICICI Bank states these are based on assumptions believed reasonable as of the date of the release and it undertakes no obligation to update them. On the business side, the Bank indicates continued focus on growing its business banking franchise by leveraging its branch network and digital platforms (InstaBIZ, Merchant STACK, Trade Online, DigiEase, EazySign) with parameterised and programme-based lending, granularity, collateral and robust monitoring; growth in retail credit card spends is being driven by collaborations with leading brands, UPI on credit card and increasing EMI campaigns; and retail lending continues to be supported by iLens, an integrated end-to-end retail lending solution. On ESG, the Bank has a roadmap to become carbon neutral by FY2032, is evaluating options for access to green

power in some locations, is increasing focus on water and waste circularity, has enhanced CSR support for Tata Memorial Centre's three new cancer care facilities from ₹ 12.00 billion to more than ₹ 18.00 billion, and has implemented a digital tool for ESG data management and emissions monitoring.
